

## REVIEW FOR APPLICABILITY OF/COMPLIANCE WITH ORDINANCES/POLICIES

FOR PURPOSES OF CONSIDERATION OF  
TPM 20875RPL<sup>2</sup>, Log No. 04-14-036; Williams

August 17, 2006

**I. HABITAT LOSS PERMIT ORDINANCE** – Does the proposed project conform to the Habitat Loss Permit/Coastal Sage Scrub Ordinance findings?

YES  
☐

NO  
☐

NOT APPLICABLE/EXEMPT  
☒

Discussion:

The proposed project and any off-site improvements are located within the boundaries of the Multiple Species Conservation Program. Therefore, conformance to the Habitat Loss Permit/Coastal Sage Scrub Ordinance findings is not required.

**II. MSCP/BMO** - Does the proposed project conform to the Multiple Species Conservation Program and Biological Mitigation Ordinance?

YES  
☒

NO  
☐

NOT APPLICABLE/EXEMPT  
☐

Discussion:

The proposed project and any off-site improvements related to the proposed project are located inside of the boundaries of the Multiple Species Conservation Program. The project conforms with the Multiple Species Conservation Program and the Biological Mitigation Ordinance as detailed in the MSCP Findings of Conformance, dated January 18, 2006.

**III. GROUNDWATER ORDINANCE** - Does the project comply with the requirements of the San Diego County Groundwater Ordinance?

YES  
☐

NO  
☐

NOT APPLICABLE/EXEMPT  
☒

Discussion:

The project will obtain its water supply from the Padre Dam Municipal Water District which obtains water from surface reservoirs and/or imported sources. The project will not use any groundwater for any purpose, including irrigation or domestic supply.

The project is exempt from the requirements of the San Diego County Groundwater Ordinance Section 67.720. The project will not have a significant adverse impact on groundwater quantity because the total project demand will be less than 20,000 gallons per day and the project complies with the San Diego County Groundwater Ordinance.

**IV. RESOURCE PROTECTION ORDINANCE** - Does the project comply with:

The wetland and wetland buffer regulations (Article IV, Sections 1 & 2) of the Resource Protection Ordinance?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>
The Floodways and Floodplain Fringe section (Article IV, Section 3) of the Resource Protection Ordinance?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input checked="" type="checkbox"/>
The Steep Slope section (Article IV, Section 5)?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>
The Sensitive Habitat Lands section (Article IV, Section 6) of the Resource Protection Ordinance?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>
The Significant Prehistoric and Historic Sites section (Article IV, Section 7) of the Resource Protection Ordinance?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input checked="" type="checkbox"/>

Discussion:

***Wetland and Wetland Buffers:*** The site contains coast live oak riparian forest, which if disturbed would result in a significant impact. The entire area of coast live oak riparian forest will be protected within an open space easement. Most of the wetland habitat is within an existing open space easement. The remaining wetland and wetland buffer will be preserved within an expanded open space easement prior to issuance of improvement or grading plans or prior to recordation of the Parcel Map, whichever comes first. There will be no net loss of wetlands and therefore no significant impact will occur.

***Floodways and Floodplain Fringe:*** The proposed residence is not within the floodways, flood plain fringe as defined in the Resource Protection Ordinance.

***Steep Slopes:*** The average slope for the property is approximately 38.5 percent gradient. Slopes with a gradient of 25 percent or greater and 50 feet or higher in vertical height are required to be placed in open space easements by the San Diego County Resource Protection Ordinance (RPO). There are steep slopes on the property however, an open space easement is proposed over the entire steep slope lands. Therefore, the project is in conformance with the RPO.

**Sensitive Habitats:** No sensitive habitat lands were identified on the site as determined on a site visit conducted by Christine Stevenson on May 19, 2005. Therefore, it has been found that the proposed project complies with Article IV, Item 6 of the Resource Protection Ordinance.

**Significant Prehistoric and Historic Sites:** The County of San Diego staff archaeologist Gail Wright has inspected the property, analyzed records, and determined there are no archaeological/ historical sites.

**V. STORMWATER ORDINANCE (WPO)** - Does the project comply with the County of San Diego Watershed Protection, Stormwater Management and Discharge Control Ordinance (WPO)?

YES  
☒

NO  
☐

NOT APPLICABLE  
☐

Discussion:

DPW has reviewed the Minor SWMP received September 30, 2004 by DPLU and has accepted it.

**VI. NOISE ORDINANCE** – Does the project comply with the County of San Diego Noise Element of the General Plan and the County of San Diego Noise Ordinance?

YES  
☒

NO  
☐

NOT APPLICABLE  
☐

Discussion:

The proposal would not expose people to nor generate potentially significant noise levels which exceed the allowable limits of the County of San Diego Noise Element of the General Plan, County of San Diego Noise Ordinance, and other applicable local, State, and Federal noise control regulations.

Transportation (traffic, railroad, aircraft) noise levels at the project site are not expected to exceed Community Noise Equivalent Level (CNEL)=60 decibels (dB) limit because review of the project indicates that the project is not in close proximity to a railroad and/or airport. Additionally, the County of San Diego GIS noise model does not indicate that the project would be subject to potential excessive noise levels from circulation element roads either now or at General Plan buildout.

Noise impacts to the proposed project from adjacent land uses are not expected to exceed the property line sound level limits of the County of San Diego Noise Ordinance.
